Have You?

Every one who believes that the
people and not Wall Street should
be in charge of the government
should contribute their mite to the
Democratic Campaign fund. The
Wall Street and high tariff barons
who want to run the government
and have been ousted from this po-
sition by Woodrow Wilson are do-
ing all they can to elect Hughes in
order that again the government
and people will again be at the
mercy of Wall Street and high tar-
iff crowd. Should Hughes win the
millions contributed by the big in-
terests to his campaign fund will
have to be repaid the big cor-
porations, and with it, a sum greatly
in excess of the contribution as
interest. Contribute now to the
Wilson Campaign, help elect him
and the people will continue to rule.

"Pinch Back"

Six months ago it didn't
exist. Now we see it on the
backs of half the country's
well dressed young men.

What Is It?

Why, just what the
name implies—a
shapelier coat—trim-
mer at the waist
line—snugger in the
small of the back—
gives you more of a
"figure" and a "bit
of an air."

If you're young in
your ideas you'll
like the "Pinch
Back"

If you like ANY,
you'll surely like
OURS.
